

FOR IMMEDIATE RELEASE

Co-nexus, Inc. Joins The Texas Cooperative Purchasing Network (TCPN)

Houston, TX, February 20, 2007—The Texas Cooperative Purchasing Network (TCPN), known for innovation and flexibility in contract offerings, organization and value, has added Co-nexus, Inc. to its family of providers. Co-nexus is the provider of the CXM recording and quality monitoring application.

With a commitment to providing the best value and world-class customer satisfaction, TCPN provides quality contracts and services that are compliant with bid laws, convenient to use, and always competitively priced. TCPN does more than provide contracts. TCPN is with you side by side until the job is complete. We provide our service to both school districts and to governmental agencies.

The Co-nexus, Inc. CXM application can be utilized by both school districts and governmental agencies enabling them to:

- Automatically record phone calls
- Record PC activity
- Permanently archive recorded transactions
- Easily access recorded interactions from any PC
- Encrypt recorded information for regulatory compliance

Mike Perricone, TCPN Contracts Manager, said, “TCPN is excited about the addition of Co-nexus Communications and the benefits their CXM recording platform will bring to our clients. School districts and governmental agencies need the ability to record calls, both on demand and full time recording. In particular, ISD Police Departments will be interested in this application.”

“Membership in TCPN is extremely important to us”, said Brian Daily, Co-nexus, Inc. VP of Sales and Marketing. As our CXM application has developed a feature set conducive to school districts and government entities it is critical that we look for the most effective way to market CXM to these organizations. TCPN is a perfect fit for us as TCPN opens up this important market simplifying the purchasing process.”

About TCPN

With a commitment to providing the best value and world-class customer satisfaction, TCPN provides quality contracts and services that are compliant with bid laws, convenient to use, and always competitively priced.
